

# Hobbies and interests

## Books

### Fiction, Thrillers, Mysteries

I love reading during my free time. I like reading fiction, thrillers, and mysteries. I enjoy it because its a nice escape from reality into some amazing worlds with incredible stories to be told.

## Fall Season

## **Road trips during Fall**

My favorite season of all time is definitely Fall. I love going on road trips and seeing the beautiful scenery, especially in Michigan. Although I haven't been to a corn maze, I am very excited to be able to take my son this year and be able to experience it for the first time with him.

## **Why I am taking this class**

This year I decided it was finally time to start college. At the beginning I wasn't really sure what career I wanted to pursue. After doing a bit of research I found a career that caught my attention and it was Graphic Design. Fundamental Web Development was one of my core classes and honestly I was a bit intimidated by it at first but I am confident that I will finish the semester understanding a bit of the coding world.
